WHAT'S IN A PHONE NUMBER

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only-or includes a common surname such as Jones, Smith, Brown, etc.-this Numerical Telephone Directory will assist in determining correct firm name and address. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the full name and address of the subscriber-with this information combined with other sections of your City Directory, you may quickly establish such information, as wife's name, place of employment, job title, business address and business telephone number.
